

## MEMBERS OF SMALL JURY ADJUDGED NOT GUILTY OF CHARGES

### Trial at Waukegan Ends Tuesday With Acquittal of Fields, Kaufman and Courtney, Charged with Conspiracy to Corrupt Jury in the Former Trial of Governor Small

(By The Associated Press)  
WAUKEGAN, Ill., July 17.—"Not Guilty" was the jury's answer today to charges that the panel which acquitted Governor Len Small of Illinois here last June was "fixed."

The verdict came after one hour and ten minutes consideration of the evidence in the case of John B. Fields, Edward Kaufman and Edward Courtney, on trial for conspiracy to impede justice thru jury tampering in the trial of the chief executive.

Fields, a member of the jury which acquitted the governor in the Lake county circuit court here on June 24, 1922, and who was later appointed a deputy state game warden, was charged in the indictment on which the trial was based with having accepted \$350 from the defenders of the governor for his influence as a juror. The indictment was returned by the grand jury on April 2 this year. The trial began on June 25th, and lasted twenty three days.

## OLD LINCOLN SPIRIT AGAIN SWEEPS WEST

### LaFollette Comments on the Election of Johnson

(By The Associated Press)  
MADISON, Wis., July 17.—In the election of Magnus Johnson to the senate yesterday, "the people of Minnesota fired a shot which will be heard in every section of the country," according to a statement issued today by Senator R. M. LaFollette, who supported Mr. Johnson.

"The people of the great north, west have again spoken their conviction that if representative government is to survive in the United States private monopoly must be driven out of control of their government," the statement says.

"The notion with which the reactionaries comfort themselves—that the election of Johnson expresses merely a sectional protest of disgruntled farmers and workmen against present economic conditions and governmental policies—is a ridiculous delusion."

**Voice of Minnesota.**  
"The voice of Minnesota is the voice of the common people of this country constituting 90 per cent of the people who are determined to free themselves from the monopoly power over their lives which had been built up over a long period of years thru favors for the few extorted from the government of the many."

"The old Lincoln spirit is again sweeping the west. It will find its echo in the east, the south and the middle west just as soon as courageous and able leaders of the type of Magnus Johnson arise to champion the cause of the common people."

"Partisan politics and their press cannot long deceive themselves concerning this fundamental movement among the people. The people are awake. The old party slogans do not deceive them. They are not to be misled by the ridicule and abuse which has been directed at their leaders. They have learned to know the real enemies of their political and economic liberty."

## SENTENCED WOMAN NOW ACCUSES SON

(By The Associated Press)  
CHICAGO, July 17.—Mrs. Sabella Nitti Crudelle, sentenced to hang October 12, for the murder of her first husband, today accused her son, Michael Nitti, 21 years old, of the crime. The youth was one of the witnesses against his mother and Peter Crudelle, second husband of the woman, both of whom were convicted.

## TON OF COAL COSTS MILLIONS OF MARKS

BERLIN, July 17.—Ruhr anthracite coal now costs 1,631,000 marks a ton, gross, under the new tariff established by the federal coal association for markets in unoccupied Germany. The tariff shows a general increase in prices of 63 per cent. The gross quotation includes taxes and transportation costs. The Upper Silesian coal is increased by 278,500 marks a ton net.

## HARDING FAILS TO COMMENT ON SENATOR-ELECT

### Disappointment Was Obvious Upon Receipt of News

(By The Associated Press)  
CURRY, Alaska, July 17.—News of the election of Magnus Johnson Farmer-Labor candidate to the senate from Minnesota over Governor Preus was received by President Harding this morning when his special train on the Alaskan railroad was stopped here for breakfast.

The chief executive read the Associated Press dispatches saying Governor Preus had conceded his defeat and giving returns from about half the state, but he would make no comment for publication on the grounds that the voters of Minnesota had spoken and any statement from the president would be unseemly.

**Harding Disappointed**  
It was obvious that the president was greatly disappointed. Other members of the party who might be regarded as reflecting the views of the executive were inclined to the view that Governor Preus brought about the present situation thru the refusal to make an ad interim appointment of a senator.

Mrs. Harding's condition was said by attending physicians today to be improved after a rest yesterday and a comfortable night on the train. No medicine is being given her, the doctors being careful only that she remain on the train this morning when the party had breakfast at the Curry Hotel.

**Can't Make Auto Trip**  
It was held to be inadvisable that she make the 300 mile automobile trip from Fairbanks over the Richardson Trail because of her condition of fatigue and in view of her need of rest and in order to prepare her for a strenuous program on the return to the states. There is no indication the doctors say that her condition will interfere with the program ahead of the party or that the tour thru the states, the Panama Canal and Porto Rico would be shortened on her account.

## MEN CHARGED WITH ROBBERING MAILS AT SPRINGFIELD JAILED

### Indictments Kept Secret Because Some Men at Large

(By The Associated Press)  
SPRINGFIELD, Ill., July 17.—Five St. Louis men, all alleged members of the gang known as "Egan's Rats," were lodged in jail here today on charges of robbing the United States mails at the Chicago & Alton station here several months ago.

The men were indicted by the federal grand jury on June 4th but announcement of the indictments was not given out because several of the men were at large.

The five are Frank Stagner, Joe Bowman, Claude Smith, Morris Rudensky and Roy M. Madison.

Bonds for the first three were fixed at \$40,000 each and for Rudensky and Madison \$50,000 each.

At the time of the mail robbery here several months ago the Chicago & Alton Station was raided by a party of men with sawed off shotguns. It was thought they were after a shipment of \$50,000 but they picked the wrong mail sacks.

It is probable the five men will be taken to Bloomington to be lodged in the McLean county jail.

## FOUND GUILTY BY PUBLIC OPINION

(By The Associated Press)  
CLEVELAND, Ohio, July 17.—Attorneys for John L. Whitfield charged with the murder of Patrolman Dennis Griffin, late of day filed a motion in common pleas court asking that Whitfield be tried in some other county than Cuyahoga because he already has been found guilty of a crime here by the court of public opinion.

The motion is expected to be heard tomorrow morning by common pleas Judge George P. Baer, who also will hear arguments upon a demurrer filed by attorneys for the defense attacking as unconstitutional the Ohio statute making killing of a policeman first degree murder.

## RAILROAD OFFICIAL MARRIES AGAIN

Port Chester, N. Y., July 16.—Robert F. Loeve, vice-president of the New York Central and former husband of Baroness Alix Munck, was secretly married to his secretary, Miss Elizabeth Hughes, last Wednesday it was stated tonight by the Rev. Father John A. Waters, who said he performed the ceremony.

## Republicans Warned That Ford May Win

(By The Associated Press)  
NEW YORK, July 17.—Senator Smith W. Brookhart of Iowa back from a ten week's survey of agricultural conditions in Europe, today declared that the election to the senate of Magnus Johnson of Minnesota was a warning to the Republican bosses that something was about to happen in the political situation of the United States.

Senator Brookhart, a Republican who was elected with the support of the Farmer-Labor bloc to the seat previously held by Senator William S. Kenyon, in his first public statement since his return to the United States, touched on the presidential situation.

Asserting that he had read only three of the speeches which President Harding had delivered on his tour, Mr. Brookhart said:

**Brookhart's Opinion.**  
"I should think that about three more speeches like these would elect Henry Ford by about 10,000,000 majority, if the president is a candidate. It is time the Republican party was looking for a candidate who will fight for the common people and against Wall Street. Some one like Judge Kenyon should be drafted for this purpose."

"The thing that demands immediate attention is an extra session of congress on the agricultural situation. A good crop is coming all over Europe including Russia. I saw nearly two thousand miles of it and the Russian peasants have planted, notwithstanding the propaganda in America that they refused to plant. They have good crops and likely a large surplus."

"The farmers of America need to know these facts above all others. When they are known it is plain that the Lenroot bill and other legislation passed at the last session are simply makeshifts and wholly inadequate for agricultural needs."

**Farmers Getting Less.**  
"Radio dispatches on my boat coming back said there are prospects for big crops in the United States. For forty years the farmers have received less total money for their big crops than for the little ones. They did not work in harvesting and handling and paid the extra freight for shipping and took less return for it all."

"They are in the same situation now, made worse by their own deflation and aggravated by railroad inflation. Every other business sells its product in a protected home market and is able to charge the farmer cost of production and in many cases more."

## WOMAN POSING AS BOY BELIEVED TO KNOW OF HOLD-UPS

### See Connection with Recent Robbery of Taxi Drivers

(By The Associated Press)  
CHICAGO, July 17.—Mrs. Blanche Voorhes McIntosh of Chicago, Ill., 19 year old girl arrested here today while posing as a boy, was believed by the police tonight to be implicated in a half dozen recent holdups of taxi drivers.

Roy Warner, 21 years old, a companion, confessed, according to the police that he was one of a band that has held up numerous taxi drivers and on information supplied by him six other holdups were taken into custody.

Warner, according to the police, did not implicate the girl, but the police expressed the opinion that he was trying to shield her.

**Has Left Husband**  
Mrs. McIntosh said she left her husband in Danville three weeks ago.

"It's easier to get by in boy's clothing," she said, in explanation of her male attire.

The girl posing as a man was at first suspected of having some connection with the murder of Richard Tesmer, insurance adjuster several weeks ago. Fred Thompson, the man who posed as a girl, was indicted in connection with this case today and it was thought that the couple might have some connection but the police apparently discarded this theory.

## INDIANA GOVERNOR DENIES PERMIT TO HOLD PRIZE FIGHT

### Want to Stage Dempsey-Gibbons Fight in Indianapolis

(By The Associated Press)  
INDIANAPOLIS, Ind., July 17.—Governor McCray has refused a group of local business men permission to stage a Dempsey-Gibbons fight in Indianapolis, it became known today, but the promoters are going ahead with their plans, in the hope of holding the match at Fort Benjamin Harrison.

A government reservation just north of the city. Members of the group in commenting upon the governor's refusal to permit holding of the match here declared they are of the opinion the executive's jurisdiction does not extend over the government property.

## PRSDENTIAL PARTY ASKED TO VISIT HAWAII

(By The Associated Press)  
HONOLULU, Hawaii, July 17.—President Harding, altho appreciative of an invitation extended by Governor Farrington and the legislature of Hawaii to visit the island territory before completing a tour which has taken him 500 miles into Alaska considers it impossible to accept.

The invitation was laid before the chief executive today by Secretary of the Interior Work while Mr. and Mrs. Harding were traveling southward over the government's Alaska railroad.

## BILLIONS OF MARKS SEIZED BY FRENCH

FRANKFURT ON MAINE July 17.—A shipment of 27,000,000 marks had been seized by the French occupation forces while in transit north of Eltville near Mayence. A German railway official and two assistants were arrested in connection with the shipment.

## ELECTION OF JOHNSON DUE TO DEMOCRATS

### Chairman Republican National Committee Explains Defeat

(By The Associated Press)  
ST. PAUL, Minn., July 17.—Further returns late today from the United States senatorial election in Minnesota yesterday indicated the plurality of Magnus Johnson, Farmer-Laborite, would exceed 70,000 and might mount to the 75,000 mark.

With the election of Johnson assured no concerted effort was made by state tabulation headquarters to bring in the missing precincts but when 2,721 of the state's 3,520 precincts had reported, Johnson had a lead of 67,479.

These precincts, the Farmer-Laborite polled 248,060 votes as compared to 180,373 garnered by Governor J. A. O. Preus, Republican, and 17,906 for James A. Carley, Democrat.

This total of 446,339 votes was believed within 60,000 to 75,000 of the total for the state as compared to a total of 300,000 polled in the June 18 primary election.

WASHINGTON, July 17.—Commenting on the election to the senate yesterday of Magnus Johnson, Farmer-Labor candidate, Chairman Adams of the Republican national committee in a statement tonight declared that "in a general way the result in Minnesota was a voice of protest against conditions temporarily afflicting the farming interests adversely. Agricultural conditions are bound to improve, he said, adding that the American farmer "can be depended upon in the long run to support the cause of good government, sound economics and stable institutions."

Mr. Adams pointing out that returns indicated the Democratic candidate polled about five per cent of the total vote said that "certainly the Democratic party cannot get much comfort out of this result."

## ZACHARY CASE GOES TO SUPREME COURT

### Writ of Supersedeas Issued Yesterday Permits Defendant to Remain at Liberty on Bond Pending Final Court Action.

(By The Associated Press)  
SPRINGFIELD, Ill., July 17.—The supreme court at its October session will review the case of Samuel T. Zachary, convicted in Scott county of slaying Luther Crawford in November, 1921. A writ of error and supersedeas was granted today by Justice Floyd E. Thompson and the defendant was liberated on bond of \$15,000.

Crawford was killed southeast of Jacksonville and the case was tried in Scott county on charge of venue.

For a number of days W. N. Hairgrove, one of the attorneys for Mr. Zachary, has been seeking to bring the matter before a supreme court justice. The effect of the action yesterday is to permit the defendant Zachary to give bond while his case is pending before the supreme court. Had supersedeas not been issued the defendant would have been sent to Chester penitentiary some time this week.

## ELECTION IS TIED; RECOUNT ORDERED

(By The Associated Press)  
CHICAGO, July 17.—A recount was ordered today in the election of president of the Sixth Division of the Railway Mail association when it was found H. L. Rolle of Chicago received 678 votes and J. S. Bockin of Galesburg, Ill., received 673 votes for that office.

H. H. Fries of Peoria was elected vice-president and Fred R. Loomis of Rock Island, secretary-treasurer.

## ATTORNEY GENERAL ASKS DISSOLUTION OF HARVESTER CO.

### Asks Division Into at Least Three Distinct Corporations Alleging Original Dissolution Decree of 1918 Inadequate—Company is Operating in Restraint of Trade

(By The Associated Press)  
WASHINGTON, July 17.—Separation of the International Harvester company into at least three distinct corporations, with wholly separate owners, stockholders and officials was demanded by Attorney General Daugherty today in a petition filed in the federal district court at St. Paul, Minn.

Such a step is necessary, the attorney general's petition declared because the dissolution decree originally entered against the company in 1918 had proved inadequate to break up restraint of trade and restore competition in the production of harvesting machines and other farm implements.

The court was asked by the petition to enter a new decree holding that the harvester company still is a combination in restraint of interstate trade and commerce in harvesting machinery and still is monopolizing and attempting to monopolize said trade and commerce in violation of the Sherman anti-trust law and contrary to the several opinions, orders and decrees of this court.

## PRESIDENT OF HARVESTER CO. TALKS ON SUIT

### Claims International Harvester Co. Not Restricting Trade

(By The Associated Press)  
CHICAGO, July 17.—Prices of harvesting machinery are the result of vigorous competition, which the Sherman law was enacted to preserve, and are fairly comparable with the price of other implements fixed by normal competition, Alexander Legge, president of the International Harvester company said today in a statement commenting on the government suit against the company filed in federal district court at St. Paul.

The suit, Mr. Legge said, is a continuation of the government action brought against the company 11 years ago. The harvester company, he said, was acquitted, by court findings and the attorney general's admission of any wrongful dealings or unfair practices toward customers or competitors, but in 1918 a decree was entered to insure fullest competition, requiring the company to sell to competitors certain complete lines of harvesting machinery and limiting sales representatives to a single dealer in any one city. That decree, he said, provided that at the end of a test period which has now expired the government might ask the court to determine whether or not the free competition contemplated by the Sherman anti-trust law, in the farm implement industry. This step the government is now taking the statement said and continued:

**Mr. Legge's Statement.**  
"As we understood it the sole issue raised by the present petition relates to competitive conditions with respect to harvesting machines only. It does not charge the company with unduly raising the price of harvesting machinery to the grave injury of the American farmer as was charged in 1912, but it does charge that the company has been unduly depressing the price of harvesting machinery, particularly since 1920, to the injury of its competitors."

## SPECIAL PROSECUTORS STAFF IS DISBANDED

(By The Associated Press)  
CHICAGO, July 17.—The special staff of prosecutors from the attorney general's office which has been here for nearly a year in connection with the grand jury investigation of alleged City Hall graft was disbanded today altho the grand jury was held in session. The action came as a result of the refusal of the county board yesterday to vote \$50,000 to continue the investigation. Thirteen indictments have been returned by the special grand jury these cases would be rushed to trial.

## CANTON IN HANDS OF YUNNANESE TROOPS

(By The Associated Press)  
SHANGHAI, July 17.—Canton today is in the hands of 5,000 Yunnanese troops who split with General Han Tsung Chi, chief of Chinese forces, and are now following friction between the constitutional leader and his Yunnanese lieutenants, the latter walked out of the battle line on the North River, returned to Canton and seized all points of strategic value here.

## TWENTY INDICTED FOR SYNDICALISM

(By The Associated Press)  
LOS ANGELES, Calif., July 17.—Twenty alleged members of the Industrial Workers of the World were indicted for criminal syndicalism by the Los Angeles county grand jury today. Bonds were fixed at \$7,500 in each case. Most of the defendants were already under arrest.

These are hard days for farm  
bureaus but just at the time when  
the work of these organizations  
should be of the most help. The  
most important work of the farm  
bureaus relates to production and  
fertility. If farmers will heed the  
advisors with reference to diver-  
sification of crops and on subjects  
of that kind they will be benefi-  
ted to a large degree. The farm  
bureau cannot solve all of the  
farmers' problems but it can help.

The Standard Oil Co. of  
Indiana is one of the oil com-  
panies that does an immense busi-  
ness and is often referred to as a  
part of the "trust." A recent  
statement gives the interesting  
sidelight that the Rockefeller  
Foundation is now the largest  
stockholder in the company and  
owns less than 6 percent of the  
total number of shares. Today  
there are 37,000 stockholders in  
this great company, whereas five  
years ago the number was but  
4,600.

Frequently these days the sug-  
gestion is made that an all time  
Scout executive for Morgan  
county would give great impetus  
to work for boys. In Sangamon  
county, McLean county and in  
others in this state the organiza-  
tion of first class Boy Scout  
councils under the direction of  
all time executives has brought  
about very desirable results.  
Men who give consideration to  
such subjects are fully persuaded  
that the Boy Scout movement is  
the best organized effort to make  
good citizens out of boys that has  
been inaugurated in recent years.  
The time should not be far dis-  
tant when Morgan county has a  
first class council.

Senator Brookhart's outburst  
on the Minnesota election result  
is quite in accord with his re-  
cord. The Iowa senator has at-  
tempted to ridicule a number of  
President Harding's recent ad-

resses and is characteristically  
careless about his facts. He has  
the faculty of making assertions  
and leaving the proof for future  
consideration. However, Sena-  
tor Brookhart's report on Rus-  
sian conditions is interesting,  
altho his viewpoint is evidently  
prejudiced.

The bribery trial at Waukegan,  
an outgrowth of the Small trial,  
has ended in the acquittal of all  
the defendants. If this political  
warfare is to continue it will now  
be in order to try somebody for  
bribing this second jury. The  
board of education fraud case in  
Chicago worried along for  
months like the Waukegan case  
and ended in acquittal. It is not  
surprising that the Cook county  
board has declined to make an  
appropriation of \$50,000 for  
another Chicago fraud investiga-  
tion.

#### MISS POCOCK WEDS IN CEDAR RAPIDS

Former Jacksonville Young Wo-  
man is Bride of Russell W.  
Manatt—Wedding an Import-  
ant Social Event.

The Cedar Rapids Evening  
Gazette of recent date gives no-  
tice of the marriage of Miss Kath-  
ryn Pocock to Mr. Russell W.  
Manatt. The bride is a daughter  
of Mr. and Mrs. Glenn D. Pocock,  
former residents of this city. She  
is a niece of Mr. and Mrs. J.  
Wilbur Johnson and is well  
known locally.

The wedding, according to the  
Gazette, was an important social  
event.

Paragraphs from the paper  
are quoted.

"Before a lovely bower of flowers  
and greenery at the home of the  
bride's parents, Mr. and Mrs. Glenn  
D. Pocock, 1012 Fourth avenue, the  
ceremony was performed which  
united their daughter, Kathryn, in  
marriage to Russell Walker Manatt,  
son of Mr. and Mrs. Frank E. Manatt  
of this city, at 4 o'clock this after-  
noon.

"The improvised altar at the west  
end of the living room was formed  
of asparagus fern, making a lacy  
green background against which ap-  
peared in contrast masses of flowers  
in the bride's chosen color scheme,  
pink and white. Tall wicker floor  
baskets at either end held pink  
gladioli. The shades were drawn,  
and the soft light from white tapers,  
burning in Colonial wall-candlesticks,  
suffused the living room and dining  
room in which the seventy-five guests  
were assembled.

"Just before the ceremony, Mrs.  
Ruth Ebling Massey sang, 'Because'  
by 'Ardelot, with Miss Flora Mac-  
Kay at the piano. As Miss McKay  
began the soft strains of the Bridal  
Chorus from 'Lohengrin,' the bride,  
with her father, and preceded by her  
little attendant, descended the stairs  
at the east of the living room and  
took her place before the altar.

"She was lovely in a gown of  
white metallic tulle, and silver lace,  
made simply with yoke and tiny  
sleeves of the lace, and front panel  
caught at the waistline with tiny  
silver rosettes. Her veil of white silk  
tulle was fastened with a silver  
wreath. Her bouquet was of butter-  
fly roses and lilies of the valley with  
shower of lilies and buds.

"Her little attendant was Betty  
MacKenzie, in a gown of white dot-  
ted Swiss over pink silk, with sash  
of pink and orchid. In the heart of  
a formal Colonial bouquet she bore  
the ring.

"At the altar they joined the bride-  
groom, and the Rev. James N. Mac-  
Kenzie, rector of St. John's Episco-  
pal church, who read the impressive  
service.

Leave For Lake Okoboji.

"Mr. and Mrs. Manatt left by au-  
tomobile for Lake Okoboji. Mrs. Manatt  
wearing a going away costume of  
navy blue embroidered tri-  
colored, and small hat of gray and or-  
chid. After ten days or two weeks  
at a lake side inn, they will be at  
home to their friends at 854 First  
avenue.

"The bride's pleasing personality  
has won her a host of friends in  
Cedar Rapids where she came with  
her parents about six years ago. Her  
earlier schooling was at Knox college,  
Galesburg, but her last two years  
were spent at Coe college, from which  
she was graduated with the degree of  
bachelor of music in 1920 having  
studied with Prof. Clyde Stevens,  
formerly of the music faculty of Coe  
conservatory. She is an accom-  
plished pianist. For the last three  
years she has taught in the local  
schools, at Arthur, Jackson and Mc-  
Kinley junior high school. She is a  
member of Delta Delta Delta sorority.

"Mr. Manatt has also lived in  
Cedar Rapids about six years, having  
come here from Lorenz, Ia. He is  
connected with the savings depart-  
ment of the Merchants National  
bank. During the war he saw eight-  
teen months of service, having been  
a member of the motor transport.

Among out of town guests at  
the wedding were the bride's  
uncle and aunt, Mr. and Mrs. J.  
Wilbur Johnson of Jacksonville, Ill.

SOME EARLY ITEMS  
(BY ENSLEY MOORE)  
Member Illinois Historical Society

Morgan county had its first  
member of the General Assembly  
of Illinois in the Fourth., which  
met at Vandalia, Nov. 15, 1824.

The patriot who was so distin-  
guished was Archibald Job, a  
resident of the northern part of  
the county, which is now Cass  
county, that being taken off from  
Morgan in 1837.

Mr. Job was a good man, and a  
creditable Representative. In the  
Fifth Assembly, which met Dec.  
4, 1826, he was promoted to the  
State Senate, and John Leeper  
succeeded him in the House.

W. B. Green was the next Rep-  
resentative.

James Evans was the next  
Senator, in 1830, and Newton  
Cloud and John Henry, in turn,  
served in the House.

William Thomas broke into the  
Senate in 1834, and Newton  
Cloud had the next two terms in  
the House. Mr. Cloud was a  
Methodist minister.

The representation was in-  
creased in 1836, and Morgan had  
double the number of Senators  
and Representatives. This helped  
us to secure the institution for  
the Education of the Deaf and  
Dumb, as it was first called.

Stephen A. Douglas appeared  
in legislative halls, as a member  
of the House, in 1836, but soon  
resigned. He was from Morgan  
county then.

Our First State Officers

Samuel D. Lockwood was our  
first State Officer, being made a  
Justice of the Supreme Court in  
1825, and serving until 1848.

When he resigned. He lived in  
the little brick house at the  
southwest corner of College Ave-  
nue and Church street, the house  
whose last occupant was Mr.  
Gates Strawn. Judge Lockwood  
removed to Batavia, Kane county,  
about 1855.

Stephen A. Douglas still resid-  
ed here, when he became Secre-  
tary of State, a position he held  
only a short time.

Newton Bateman became Super-  
intendent of Public Instruction in  
1859, and served ten years.

Josiah Lamborn was elected  
Attorney-General from this coun-  
ty in 1840.

United States Officers

Gov. Richard Yates became U.  
S. Senator in 1865.

Gen. Murray McConnell was an  
Assistant Treasurer of the U. S.,  
under President Pierce.

That Big Three, Abraham Lin-  
coln, Edward D. Baker and John  
J. Hardin, divided turns as Rep-  
resentatives in Congress from this  
District, and Hardin's turn came  
in 1842. Capt. John Henry was  
elected to the vacancy made by  
E. D. Baker going into the Mexi-  
can War.

Richard Yates was elected in  
1850 and again in 1852.

It should have been stated that  
Joseph Duncan was elected to  
Congress in 1832, but resigned  
to become Governor, in 1834.

Richard Yates was elected in  
1860, as Governor. At first the  
office of Governor could only be  
held for one term of four years.

Terese Irene, the infant daugh-  
ter of Mr. and Mrs. Louis Pieper  
of 903 South East street passed  
away Tuesday afternoon after an  
illness of two days. The child  
who was four and a half months  
of age, is survived by her parents  
two sisters and one brother Mary  
Cecilia, Elizabeth and Paul.

The funeral service will be held  
at 4 o'clock this afternoon from  
the Church of Our Savior, and  
interment will be made in  
Calvary cemetery.

Gilliland

G. E. Gilliland an aged resi-  
dent of the Arenzville neighbor-  
hood, died at 3 o'clock Tuesday  
morning at Passavant hospital,  
where he was brought on June  
29, suffering from cancer of the  
stomach. He has been living for  
some time alone on his farm west  
of Arenzville. Deceased was  
born Dec. 2, 1853.

Mr. Gilliland is survived by  
two sons and two daughters: Mrs.  
Mande Strawn and Raymond Gil-  
land of San Francisco, Cal. Hal-  
lie Gilliland of Beardstown, and  
Miss Florence Gilliland of Peoria.

He also leaves three brothers:  
James of this city, Amos of Quincy  
and Charles of Old Berlin; and  
one sister, Mrs. William Lorton,  
of this city. Three brothers and  
one sister preceded him in death.

The remains were removed to  
the funeral parlors of Arthur G.  
Cody. Funeral arrangements  
will be announced later.

SPANISH GOVERNOR  
FILES RESIGNATION

(By The Associated Press)

MADRID, July 17.—The govern-  
or of Valencia, Senor Baillo, to-  
day arrived in Madrid and tend-  
ered his resignation. This ac-  
tion was taken in consequence  
of the governor having been de-  
nounced in the chamber of de-  
puties Monday by one of the de-  
puties who informed the govern-  
ment that the governor recently  
took the part of a matador in a  
bull fight and killed his bull in  
such a splendid manner that he  
was given an ovation by the  
spectators. It was asserted that  
the governor used an assumed  
name in the bull ring.

Governor Baillo declined to-  
day to discuss the declaration of  
the deputy.

#### THREE BREAK JAIL IN SCHUYLER COUNTY

Escape from Rushville Monday  
Evening by Sizing Girl and  
Throwing Her Into Cell—  
Police Here Search for Prison-  
ers

Three prisoners in the Schuyler  
county jail at Rushville escaped  
Monday evening during the sup-  
per hour when they seized the  
serving maid who brought them  
their meals, threw her into the  
cell, and made their way to free-  
dom. News of the jail delivery  
was brought to this city yester-  
day by a Schuyler deputy who  
was searching for the escaped  
prisoners.

The men's names were John  
Mays, Jim Garrett and Davis.  
They are described as young men,  
all dressed in overalls. Schuyler  
authorities believe they made  
their way southward by means of  
a Burlington freight. Chief  
Frank Kiloran and the day force  
searched the likely places of this  
city for the fugitives.

WOULD SAVE C. P. SHOPS  
AS LOCAL INDUSTRY  
A suggestion has been made to  
convert the C. P. & St. L. car

repair shop, which would do  
work for many roads. It is be-  
lieved that if the road is aban-

saved for Jacksonville in this  
way. Mt. Vernon, Ill., depends

upon such independent shops as  
one of its chief industries. It is

## PARLIER FUNERAL IS HELD AT ARENZVILLE

Jacksonville Minister In Charge of Rites For World War Veteran. Arenzville Chautauqua Opens July 29.

Arenzville, Ill., July 17.—Funeral services were held Sunday for Joseph E. Parlier, who died Thursday at his home four and a half miles west of Arenzville from pneumonia and intestinal trouble.

Services were held at 2 o'clock at the house, Rev. Marbach of Jacksonville officiating.

The deceased was 25 years old, having been born near Arenzville August 26, 1898, the son of Mr. and Mrs. William Parlier. Several years ago he was united in marriage with Miss Blanche Yeck of Concord. To this union three children were born, Aileen, Millicent and Joseph, all of whom survive.

Four brothers survive, namely: Rual E. Norman E., Opal and Elmer D. Parlier; two sisters, Mrs. Carl Pilger of Beardstown and Miss Phelpa Parlier.

As Mr. Parlier was a World War veteran and a member of the American Legion, he was given a military funeral in charge of the local post of the American Legion. Interment was made in the City cemetery.

Arthur Pfoelsgroff of Beardstown was a week end caller in Arenzville.

Messrs. Carl Thornley and Sam Gill returned Saturday evening after spending a few days in St. Louis.

Harold Wesler, and Miss Wanda Prouditt motored to Peoria Sunday.

Oil trucks are busily engaged in spreading six or eight cars of oil over the North and East roads.

Rev. and Mrs. E. F. Tonn were callers in Beardstown Thursday afternoon.

Clifford Nieman of Beardstown was an Arenzville visitor Sunday.

John Diver of Jacksonville was a caller in Arenzville Sunday.

The Arenzville Concert band will give an ice cream supper on August 9, the time set for the next month.

y drawing of the Commercial Club's Gift Campaign. A concert will be given during the evening. We hope to see everyone turn out and help the boys.

## McADOO TESTIFIES IN C. W. MORSE CASE

(By The Associated Press)

WASHINGTON, July 17.—For nearly two hours Wm. G. McAdoo, former secretary of treasury occupied the witness stand in federal court here and detailed his relations as counsel, with Charles W. Morse, the shipping operator on trial for alleged war frauds against the government.

Reports that his appearance would be accompanied by important disclosures packed the court room with spectators but for the most part Mr. McAdoo had a peaceful experience as a witness for the defense. He gave his evidence calmly and there were few clashes between government and defense attorneys. His brief cross-examination by District Attorney Gordon bore somewhat in line to the relations of Mr. McAdoo with officials of the Wilson administration but developed few facts which had not been disclosed in previous testimony.

## EASY TO SILVER MIRROR

Formula That Almost Any One Can Put Together Is Guaranteed To Do The Work.

The Scientific American gives the following formula for silvering glass: (a) Reducing solution—In 12 ounces of water dissolve 12 grains of Rochelle salts and boil. Add, while boiling, 16 grains of nitrate of silver, dissolved in one ounce of water and continue the boiling for ten minutes more; then add water to make 12 ounces. (b) Silvering solution—Dissolve one ounce of nitrate of silver in ten ounces of water, then add liquid ammonia until the brown precipitate is nearly, but not quite, all dissolved; then add one ounce of alcohol and sufficient water to make 12 ounces. To silver—Take equal parts of a and b, mix thoroughly and lay the glass, face down, on the top of the mixture while wet, after it has been carefully cleaned with soda and well rinsed with clean water. Distilled water should be used for making the solutions. About two drams of each will silver a plate two inches square. The dish in which the silvering is done should be only a little larger than the glass. The solution should stand and settle for two or three days before being used. It will keep good a long time.

## CHERRY FLOWER A SYMBOL

Japanese Have Long Regarded It as Emblem of Happiness—Flowers Almost Perfect.

To the Japanese the cherry blossom has a symbolism akin to that of the bluebird in other countries, and they speak of it as "Sakura—Symbol of Happiness." By instinct and artistic and poetic nation, Japan knows spring as the season of the eye, and in the cherry blossom this finds its most perfect expression, writes Norman C. McLeod in Nature Magazine.

To the Japanese blossom time is a season of rejoicing, which takes the form of a national fête. Through this festival the Japanese manifest the love for beauty typical of the race. It is their one dominant expression. The botanists of Japan tell us that the superb development of these blooms is a blending of the generous spirit of nature and the handiwork of man. To bring the flowers to their present perfection has involved a scientific labor of centuries.

Three thousand trees planted in Washington were the gift of the city of Tokyo to the city of Washington in 1912, as a token of friendship and international courtesy to the American people. They are one of the scenic marvels of the nation's capital.

## Classic Greek.

Greek—the shrine of the genius of the Old world; as universal as our race, as individual as ourselves; of infinite flexibility, or indefatigable strength, with the complication and the distinctness of Nature herself; to which nothing was excluded; from which nothing was excluded; speaking to the mind like English; with words like pictures, with words like the gossamer films of the summer; at once the variety and picturesqueness of Homer; the gloom and the intensity of Aeschylus; not compressed to the closest by Thucydides, nor fathomed to the bottom by Plato; nor sounding with all its thunders, nor lit up with all its ardors even under the Promethean touch of Demosthenes! —Henry Nelson Coleridge.

## Cheer the Keynote.

A writer on the subject of home economics says this of the real home worker: The woman who makes an art of her housekeeping—whether it be in some roomy town house, a suburban bungalow or a tiny four-room apartment—recognizes the value of the small accessory, whose mission is not alone to beautify but contribute to the air of homelike comfort that is so necessary to contentment. She knows that convenient tables, cheerful lights—that do not cast fringed shadows when one reads—softly shaded candles and mirrors, properly placed, make awkward corners places of livable comfort, the while they express her individuality.

## The Kind He Wanted.

Diogenes Gates, a colored man employed in a newspaper office in the South, has heard a number of subscribers speak in admiration of the pen wielded by the editor of the paper.

Not long thereafter Diogenes, in buying some stationery for his own personal use, asked the dealer to throw in a pen or two.

"All right, Diogenes," said the dealer. "What kind of a pen do you want?"

"I want one of dem trenchant pens like de boss uses," said Diogenes.

## Unanswerable.

It is the custom of a certain western magistrate after having passed sentence upon the culprits convicted in his court, to give them more or less wise advice.

On one occasion having before him a person convicted of theft, he started thus:

"If you want to succeed in this world you must keep straight. Now, do you understand?"

"Well, not quite," replied the prisoner, "but if your honor will kindly tell me how a man is to keep straight when he is trying to make both ends meet, I might."

## MAY CONSOLIDATE ELEVATED LINES

(By The Associated Press)

CHICAGO, July 17.—Consolidation of the four elevated companies of Chicago into one corporation was proposed today in a plan broached by a protective committee representing holders of \$14,000,000 of notes issued in 1914 which have been in default several years. The plans call for a reduction in capital from \$121,895,000 to \$87,196,500. Altho the roads have been operated for several years as a unit, they have maintained their separate corporate entities.

Simultaneous with this a meeting of the city council local transportation committee voted that a sub committee devise and recommend a plan of procedure in Mayor Dever's proposal to purchase the entire elevated and surface line of the city.

INDUSTRIAL REVIEW  
SHOWS HIGH WAGES  
PAID IN ILLINOIS

More Money in June Than  
for Two Years  
Past

(By The Associated Press)  
CHICAGO, July 17.—(Illinois) wage earners on the average are being paid higher wages now than at any other time since earnings statistics were compiled in the state, according to the June review of the industrial situation in the state made public today by the general advisory board of the Illinois department of labor. The consequence is, the review stated the Illinois had more

money to spend in June than at any time in the past two years. June banner month. The amount of industrial activity in the state made June the banner month of any similar period since the improvement phase of the current business cycle began, according to the review, which added that production as reflected in the volume of employment showed a moderate tendency to expand over the previous point reached in May. These summary statements are based upon the analysis of the signed reports from 1,497 firms or establishments which employ more than one-third of all manufacturing workers in the state and substantial fractions of the workers in trade, utilities, mining and building.

These firms had in June 379,444 employees, an increase of 6-10 of one per cent over the

number they reported for May. The moderate expansion has given employment to an additional 2,690 people, the review said.

**Seasonal Declines**  
The expansion did not prevail uniformly throughout the state for 29 industries reported an employment decrease. Some instances the decline was due to seasonal influence. "The only adverse indications come from the reports from the Illinois free employment offices," the review continued. "An unfavorable change of about nine points in the free employment office ratio of the number of unemployed people to vacant jobs, brought the ratio down to the point where there are practically no excess jobs at the free employment offices of the state. The increase in the number of workers seeking each 100 jobs, from 86 in April to 91 in May to 99.9 in June in omnibus. The index acted just that way in 1920 and soon afterward there were nearly three people after one vacant job. The August figure is probably more significant than that for either of the preceding months. The index for that month should be considered seriously as an indication of what the future has in store."

an extortionate profit besides. For example: During fifteen years before the war the steel trust collected \$28 per ton for rails in the United States. It sold its surplus at \$20 in foreign countries and paid the freight.

**The Foreign Market.**  
"The American farmer sells about 10 per cent of his product in foreign markets, but that little surplus fixes the price on the big ninety per cent sold at home. This not only is unfair but it means bankruptcy for agriculture this year."

"It will take immediate action of congress along the line of the Norris bill to enable the farmers to get the cost production out of their present crop. The president should call an extra session immediately."

**President's Speeches.**  
"I have read only three of the president's speeches. One urged a self-perpetuating world court, the last word in universal autocracy. Another urged a confiscating tax in railroad rates upon the people of the United States, especially upon the farmers, to sustain seven billion dollars of water in railroad valuations."

"In the third speech the president favored drafting all the people and all the property in the next war—mind you in the next war."

"But he said not a word about taxing the profiteers and dollar-a-year patriots all around him for the millions and billions of blood money which they took from the government during the world war just past to pay the bonus we promised the soldiers."

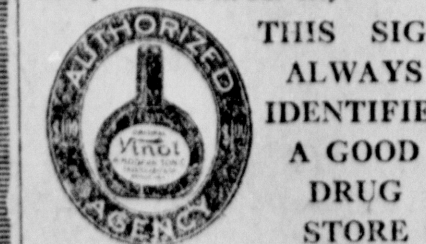

Interest in a picture of the children that made today, grows as they grow.

FOR LOVE

Mary Amelia Guidolin traveled 6000 miles to become the bride of Basso Vittorio, her childhood sweetheart in Italy. She recently landed at Vancouver. Unable to speak English, she was helped "over the rough spots" by the Travelers' Aid Society.

Judge Kenyon should be drafted for this purpose.

**Russian Situation.**

In discussing the situation in Russia, Senator Brookhart said: "Lenine is the man of the hour there. He is now suffering from a nervous breakdown brought about by overwork. His condition is similar to that of former President Wilson. Trotsky with whom I talked is an able man. The soviet government has abandoned the communistic plan for that of the co-operative."

"The soviet today is the most stable government in the world next to the United States. Russia is rapidly coming out of the chaos. Her crops are the largest ever this year, so large she will be able to ship a surplus to other European countries."

**Fabre's Rebutter.**  
Others again have reproached me with my style, which has not the solemnity, nay, better, the dryness of the schools. They fear lest a page that is read without fatigue should not always be the expression of the truth. Were I to take their word for it, we are profound only on condition of being obscure. Come here, one and all of you—ye, the sting-bearers, and you, the wing-cased armor-clads—take up my defense and bear witness in my favor. Tell of the intimate terms on which I live with you, of the patience with which I observe you, of the care with which I record your actions. Your evidence is unanimous; yes, my pages, though they bristle not with hollow formulae nor learned smatterings, are the exact narrative of facts observed, neither more nor less; and whose comes to question you in his turn will obtain the same replies—Jean Henri Fabre.

**Diamonds in United States.**  
Rock formations showing "favorable structures" for diamonds, and a few diamond crystals here and there have been found in North Carolina, Georgia, Kentucky, Ohio, Wisconsin and Colorado. In the Isaac Lea collection there is a yellow stone, uncut, but highly polished, picked up at Cabin Fork creek in Kentucky. Whether this stone was produced in Kentucky, or was picked up by a bird in a neighboring state and casually dropped over Cabin Fork creek it would be hard to say, but it was surely produced somewhere not far from where it was found, and the National museum catalogues it as coming from Kentucky. As long ago as 1856 a diamond weighing eleven and a half carats (about 45 grains, diamond weight) was found at Manchester, near Richmond, Va.

MIGHTY FORCE OF LOVE

No Other Human Emotion So Strengthens the Character and Makes for Noble Aims.

"We are shaped and fashioned by what we love."—Goethe.  
Love is the great purifier of the soul. It strengthens the character and gives a higher motive and a nobler aim to every action of life. It gives both to man and woman those higher attributes of the soul—courage, faith, nobility, strength, tenderness. It guides the life toward nobler, stronger manhood or sweeter, truer womanhood. It is the noblest gift with which a human being can be endowed. He who holds the love of another holds Heaven within his grasp. And he whose heart gives love to another enriches not only his own soul, but likewise enriches the soul of every man, woman and child whose life he touches. Love is the most potent thing in the world!

Love—true love—is indestructible. Indifference, abuse, ingratitude, repulsion cannot destroy true love; through all this true love loves on. Love simply loves, asking nothing in return. It purifies, ennobles and refines character with the touch of a Midas; it is always constructive, never destructive. Genuine love is a force that is ever uplifting. Even when sown in a barren soil it is not wasted; it always clusters, beautifies and enriches the life of the one who loves. "If there be one thing pure, where all beside is sullied, and that can endure when all else passes away—if aught surpassing human deed, or word, or thought, it is a mother's love."—Spadara.

WHY RIGHT HAND IS USED

Was Necessary in the Days When the Heart Was Guarded by the Left Arm.

The Pathfinder prints an interesting theory of why we are right-handed. Most persons are right-handed. Only one in every twenty is left-handed. Why are people right-handed? They may have been born that way. It's true, but why? There's a reason for most things, if you can only puzzle it out. Away back in the beginning the chief occupation of man was fighting. In battle he carried a shield in one hand and a weapon in the other. It was not much work to carry the shield, but the quick action required by the hand and arm which did the fighting soon developed that arm. It also developed the nerves and the half of the brain that governed the right side of the body. Those who shielded their left side—thus protecting the heart—were the ones who usually came out victorious. Down through the ages this selection continued, the right hand gradually becoming more proficient.

"All right," interrupted the weary buyer, "suppose you keep quiet a couple of minutes and give it a chance."—London Tit-Bits.

## VIRTUE ASCRIBED TO HAZEL

Superstitions Concerning its Twigs  
Have Been Firmly Held for  
Many Centuries.

The old Druid priests who were the spiritual guides of our race for many centuries gave a superstitious value to certain trees. We are still influenced by them when we breathe the holly and hawthorn mistletoe at Christmas. Practically all trees have superstitions associated with them. The bay tree, for instance, must have put fear into the hearts of our forebears, for they believed that its withering was a sure passage of death to whoever owned the land on which it grew. The hazel, however, had no such gloomy beliefs attached to it. A twig cut from a hazel tree, and set up over the front door, was regarded as an infallible charm against lightning. In remote rural districts the practice is still followed. The planting of a young hazel tree so close that its branches touched the house wall, was regarded as a harbinger of children to a childless couple. Sheep, too, were believed to be more prolific, and the mortality among lambs much less, if a hazel hedge surrounded the pasture and the protecting hurdles were of hazel. Many water diviners use a hazel twig, and a decoction made from stewing the bark of the hazel was regarded as a sure cure for whooping cough. Cupid used the hazel, too. A thin branch, twisted in a circle, and hung over the head of a coy damsel, made her, willy-nilly, love the youth who had thrown it. —Montreal Family Herald.

## TYPEWRITING LONG IN MIND

Idea Engaged Attention of Thinkers and Inventors as Far Back as the Year 1866.

With the typewriter, as with most other inventions, there is a dispute as to who was really first. Writes James H. Collins in "The Business Woman." The idea of a machine that would write had been in the air 100 years or more when Christopher Latham Sholes began turning it over in his inventive mind some time in 1866. Others had built machines that would write. . . . Patents were taken out for writing machines in England as early as 1714, and in America in 1829; but none of these machines was ever brought to the point where they were manufactured and sold to the public.

Sholes was the first man to bring a writing machine to the point where a manufacturer could take it up, and 1873 is regarded as the birth year of the typewriter, because some time in April of that year a contract was made with E. Remington & Sons, at Ilion, N. Y., to take over his patents. Both the contract and the exact date have been lost, but they marked the beginning of an industry which has meant so much to women economically, and in other ways.

**Chouans Band of Peasants.**  
Chouans was the name given to bands of Brittany peasants who espoused the royal cause during the French revolution and organized a reactionary movement in 1792. Their first leader, Jean Cottereau, was killed in 1794. Later the insurrection, under Coudal and Charrette, assumed vast proportions, and for a time imperiled the safety of the French republic. It was, however, stamped out by La Roche and its leaders forced to lay down their arms. Another attempt at insurrection was made in 1799, but this also was mercilessly crushed. Chouannerie again made its appearance in 1814-1815, and was finally wiped out in 1830, through the efforts of Thiers.

The word "chouans" is said to be a corruption of chateaux (screch owl) and to have been given, either because of the nocturnal habits of the band or because of some special call of recognition in use among them. Others trace the origin of the word to Cottereau, the first leader.—Adventure Magazine.

**Right of Unga in Mongolia.**  
Mongols travel not along the station road, but directly from one herd of horses to another, where fresh horses are caught and saddled, and new owners substituted for those of the last herd. This is called the right of unga. Any traveler having the right of unga can catch horses himself, says the Detroit News.

It was from this custom, according to one explanation, that the town of Urga, in Mongolia, abode of the living Buddha, took its name among outsiders. By the Mongols themselves it is always referred to as Ta Kure, "The Great Monastery." The reason the Burjats and Russians, who were the first to trade into this region, called it Urga was because it was the principal destination of all the trading expeditions which crossed the plains by this old method of travel.

## Produce Review

Butter production is keeping up remarkably well, being much larger than the same time a year ago. Pastures are reported to be in fine shape. Imports of foreign butter continue to be an important factor in shaping the market. Arrival last week were:

1,000 casks from Argentine.  
5,550 casks from Denmark.  
470 casks from Holland.  
(A cask contains 112 pounds.)

The total importation of butter into the United States for the first five months during 1922 and 1923 follow:

1923 . . . . . 8,308,000 pounds

1922 . . . . . 2,346,000 pounds

With the large current production of butter and continued imports, buyers have not been so anxious for stock. Ninety seven Standards are quoted at 37 cents in Chicago today as compared with 37 1/2 cents a week ago and 33 cents a year ago.

Lighter egg production and collections have resulted in a little higher

market, both in producing and consuming centers.

The movement in live poultry has been about normal and lighter receipts caused a better feeling on live fowl, the market in New York advancing to 27 cents until Friday, when it eased off and closed at 26 cents.

Live broilers are in good demand for current use and for feeding purposes, and prices have been well sustained, although any marked increase in the movement would bring about lower values.

Quotations on dressed poultry did not advance in sympathy with the live market. This is due to quite a surplus of dressed poultry on the

market, besides large storage stocks which have not been reduced as the trade anticipated.

The United States Department of Agriculture, in its preliminary report issued on July 9, shows the following holdings of butter and eggs:

**Eggs.**  
July 1, 1922 . . . . . 9,811,000 cases  
July 1, 1923 . . . . . 10,213,000 cases

**Butter.**  
July 1, 1922 . . . . . 67,410,000 pounds

Whatever your fall frocks may or may not have, it is quite safe to prophesy they will have lace somewhere, probably in great profusion.

HOWITZER COMPANY  
RECEIVES PRAISE

In a letter addressed to Adjutant General Carlos E. Black by Lieut. Colonel Charles J. Nelson, high praise was bestowed on the local howitzer company for promptness and perfect form in submitting reports. Captain James has also received commendation from the adjutant general, and the original letter as sent by Col. Nelson is being made a part of Circular No. 5 which will be mailed to all of the National Guard troops as an incentive to better rendering of reports.

Celoney Nelson states in his letter that the local reports and payroll are models in every respect, that they showed no sign of erasures or corrections, and that the local reports were in such perfect order that this report was rendered immediately after the last drill night of that period. As a rule it takes about ten days after the reports are submitted before the members receive their pay, and on account of promptness the Jacksonville guardsmen are always among the first to be paid.

One recruit was added to the roster Monday night and Captain James states that still more are needed.

CHANGE DATE OF S. MAIN  
STREET PAVEMENT HEARING

Owing to an error in the printing of the notices sent out by the Board of Local Improvements of the Village of South Jacksonville, it has been necessary to change the date of the public hearing on the proposed pavement on South Main street from July 24th to July 27th.

The Board met Monday evening and upon finding that the notices mailed did not comply with the law, ordered a new set of notices to be prepared and mailed in order that each taxpayer would have a legal notice of the meeting. The new notices were mailed Tuesday.

The proposed improvement is very much needed in South Jacksonville, and owing to the fact that the State Division of Highways is ready to construct the hard road south from Jacksonville, it is necessary that this work be started now. If the proposed pavement, curb and gutter are laid as contemplated, South Main Street in the Village will be one of the beauty spots of this vicinity.

As the state, out of the hard road fund, pays part of the cost of the pavement, the improvement must be constructed in accordance with plans and specifications approved by the state.

EAST STATE TO BE  
PAVED THIS YEAR

Board of Improvement Decides on Improvement to City Limits—Pavement May Be Extended Further

The board of local improvements at a hearing called for the extension of East State street pavement, passed a resolution providing for the pavement. It is the intention to build a concrete pavement of the type used in the state hard road system, except that it will be 24 feet in width and built with a curb instead of an earth shoulder.

The city will pave from Johnson street to the city limits and it is understood to be the intention of the county board to continue the pavement several hundred yards to a point at the top of the hill beyond the rock bridge. Engineer Henderson's estimate of the cost for the pavement inside the city limits is approximately \$14,000.

The next hearing that the board will have will be on July 24, when the proposed West Morton avenue pavement will be considered.

MEN ABOUT TO FORGE  
CHECKS ARE NABBED

Two Negroes Picked Up by Police When They Are Found With Stamps and Check Pads—Local Firms Named on Prepared Checks

What appears to have been a prospective attempt at wholesale check forgery was nipped in the bud by the police department yesterday afternoon when they brought in two suspects from the "hobo camp" north of the C. P. & St. L. shops.

The police were looking for suspects on another case and found two strange negroes there. On being searched it was found that they had a supply of both Ayers National Bank and Farrell State bank checks in their possession along with a stamp pad and rubber stamps two of which were already made up for "Doane Realty company" and "M. C. Hook Realty company," both of which are improper signatures. They had the usual alibi that they had found the outfit at the camp. They gave their names as Tom Young and Clarence Nelson. Both are still being held at the city jail for further investigation.

ARRESTED HERE AND  
TAKEN TO BEARDSTOWN

A man suspected of being in Jacksonville for the purpose of disposing of a mortgaged car, hailing from near Virginia, Cass county, fell into the arms of the law here Tuesday.

The suspect, giving the name of Cowan, was taken to Beardstown by an officer from that city. Cowan denied he had intended to sell the car and said the matter would be fixed satisfactorily as soon as he got back to Cass.

VIRGINIA PAPER FAVORS  
EPLER MILLS CANDIDACY

Senator Epler Mills of Virginia recently announced that he would be a candidate for the Republican nomination for lieutenant-governor. The Virginia Republican-Gazette speaks favorably of Senator Mills' candidacy and says:

"Mr. Mills has established an enviable reputation in the legislature. He has fostered soldier rehabilitation measures, has gone the limit for the farmers and is the author of the Gateway amendment, a step that will gain for him statewide publicity before primary day. In addition he has worked for and supported measures tending to economize in state affairs."

FIND OLD BASEMENT  
ON COLLEGE CAMPUS

Men Digging Deep Sewer Ditch Strike Brick-Faced Cellar of Building Buried in 1852—Cave-In Cause Delay—Tennis Courts Being Built.

Workmen digging a deep sewer ditch recently on the Illinois college campus struck the hidden basement of the old club house, which was burned in 1852. The ditch was being dug for the sewer which drains the new basement of Sturtevant hall. It is about fourteen feet deep and extends to a point south of the present club house, where it taps the Mound avenue sewer.

The workmen dug into the basement at a point east of the present club house. They found it filled in with bricks, and as soon as these were moved to make way for the trench, they began caving into the ditch from the sides. For three days the diggers could make little progress, as they were compelled to plow their way thru this mass of debris. This as an unexpected delay in the work and caused considerable trouble and expense.

The new chemical laboratory being constructed in the basement of Sturtevant is practically completed. It is finished in white, and the large windows admit a sufficient amount of light to make the room bright and pleasant.

Coach Harmon is having a new storage closet constructed in the stock room at the gymnasium, in which to store the large amount of athletic equipment which it is now necessary to carry in stock. With forty-five men out for football, the college must have at least four dozen football outfits. With a correspondingly large equipment for other sports, the storage becomes an important item.

Three tennis courts are now under construction one on Academy Hall lawn, and two on the site of the old court east of Beecher Hall on the college campus. The court at the Academy is nearly finished. Nearly seventy loads are required to fill in the two campus courts, and these are now difficult to obtain. The cinders constitute a filter bed to facilitate drainage of the clay top surface of the courts. The faculty court near the president's house has also been made longer, having an extension built on the south end. This will give the students and faculty five courts on the campus and one on the Academy lawn, a sufficient number to take care of future tennis tournaments.

HENRY LETTON FORMER  
RESIDENT, VISITOR HERE

Henry Letton in the earlier years of his life a resident of Jacksonville, has been spending several days in the city. Mr. Letton who is now a representative of the Park-Davison Co., has not been a resident in Jacksonville for nearly 40 years and it has been a long time since his last visit.

Naturally he finds many changes in both the business and residence districts and yesterday told Felix Farrell that he had found not half a dozen familiar faces in Jacksonville. Mr. Letton has relatives in Scott county and spent one day there this week. He expects to return to Chicago tomorrow. The Letton home here was at the corner of College avenue and Diamond street, the property now owned by A. R. Taylor.

S. O. Barr Receives One of Those Mysterious Appeals from a Spanish Prison.

S. O. Barr, well known Jacksonville merchant, has just received a letter from Madrid which offers the opportunity of great wealth quickly but he hasn't yet decided to try out the plan. The mysterious letter tells how the writer is imprisoned but with proper assistance can recover \$360,000.

Letters of the same kind have been coming to Jacksonville occasionally for years and evidently this confidence game or whatever type of fraud it may be, sometimes brings the "imprisoned one" profit.

This is the way Mr. Barr's letter reads:

Madrid, March 7, 1923.

Dear Sir:

Being imprisoned here by bankruptcy I beg your aid to recover a sum of \$360,000 dollars. I have in America being necessary to raise the seizure of my baggage paying to the registrar of the court the expense of my trial and recover my portmanteau containing in a secret pocket where I have hidden a check for that sum.

By reward I offer you the third part, 120,000 dollars. I cannot receive your answer in the prison but you must send me a cablegram to a person of my confidence who will deliver it to me.

Awaiting your cable to intrust you all my secret, I rest,

## Life Story of Clergyman Long Resident Here

(By Fred B. Loeck.)

In the front lawn of the home of Theodore Roosevelt, Jr., at Oyster Bay, N. Y., is a wooden knoll, at the side of which is a tall flag pole. In the shadow of the flag amid the underbrush of the knoll is a small graveyard. It is the burial ground of John, Henry and Richard Townsend, three brothers who came to Long Island in the sixteen hundreds. Their homestead undoubtedly stood where the Roosevelt mansion stands today. One or more of these brothers belonged to the Quakers, which "put them in bad" with their neighbors. Perhaps the "stand-up-for-principle" spirit hovered around their resting place and formed a fitting atmosphere in which a scion of the

aggressive Roosevelt selected his home.

Some 200 years later a descendant in the 8th and 9th generations from two of these brothers, came to Jacksonville and settled. He was an Episcopal clergyman, the Rev. I. L. Townsend, rector of the Trinity church. While his stay in Jacksonville was peaceful, it was not so before or afterwards, perhaps from the surging blood which lead him to battle for his principles. In the West, come towns and cities, a man may know or care where or when he whither. The stay is a link in his life, and with the other links, rounds out his career. An attempt is made here to tell the

story of a life, which in its prime was passed in Jacksonville.

Rev. I. L. Townsend was born in St. Johns, New Brunswick, where his father, hailing from New York state, was in business for some years. When he was about seven, the family moved to New York City. In Columbia college, the fierce rivalry between the fraternities kept Mr. Townsend alert. He then went thru the General Theological Seminary. His first parish was in Cherry Valley, New York. This country village was "shot thru" with old colonial families—blue bloods. As Mr. Townsend was considered a handsome young man, some of the congregation thought his marriage was thereby feasible with some damsel in one of the rich old families not connected with the parish, and might annex the family. Mr. Townsend made other arrangements—a sweet girl in "Hillside New York" was the one he wanted. A few years later, he was located in Danbury, Conn. The Civil war coming on, the community became concerned about the voting of the clergy. Mr. Townsend decided he'd vote as he thought best.

While in Danbury, Rev. Mr. Townsend built up a boys' school, Deer Hill Institute, to which he devoted his time, after nine years' rectorship of the parish.

The history of this school forms a chapter in itself, but a few words must suffice here. Among its patrons were Asa Packer, the "grand old man" of the Lehigh Valley; Robert H. Sayre, one of whose younger sons married ex-President's Wilson's daughter; Captain Wainwright, of the "Harriet Lane"; and Judge Green, said to own two-thirds of Cedar Rapids, Iowa. Many of the pupils became prominent in all walks of life. The one most widely known is George Foster Peabody.

While without parish cares, Rev. Mr. Townsend and an associate clergyman carried on three missions, five to 16 miles from Danbury. One of "the humors of the campaign" was the information from an old country farmer "when a parson is no good anywhere else, they send him up to New Fairfield."

After 14 years of school teaching, Mr. Townsend turned his thoughts to the West. He made a trip to see it in company with his cousin, Jackson Kinch, once mayor of Bordentown, N. J. He had two calls. One was from Cedar Rapids, Iowa, where his former school patron "owned the place." The other call was from Jacksonville, largely influencing his choice of Jacksonville was its being in Bishop Whitehouse's diocese. Among his parishioners was Theodore W. Morrison, the son of the preceding rector, completing his college course at Illinois college. Thus Rev. Mr. Townsend, though he did not go to Iowa, at least had a part in instructing Iowa's future bishop.

Jacksonville, "the Athens of the West" was more distinctively "high brow" than any place in which Mr. Townsend held a parish. In Cherry Valley blue blood outranked "high browism." Danbury stood for hats and for "the Danbury News man" whose writings were refreshing rather than high brow. In Rev. Mr. Townsend's later locations, Peoria's specialty was distilleries—and Washington was dominated by politicians.

Jacksonville then was not the Jacksonville of today. Everybody took home his own marketing. Fitzsimmons and Cassell blazed a course with their delivery wagon. Dry goods in the stores were soiled with soft coal dust until Gill brothers heated their store with anthracite. Oil was 50 cents a gallon, and the drop to 40 cents was a jolt. The street railway was a few feet of plank, put down to hold its charter. The waterworks were unknown. In dry spells, in some parts of the city, a family would wash its clothes in a tub of water, and pass along the water for another family to use. There was a legend that cows were driven away

from the Mausaiester to prevent their drinking it dry.

Among the clergy in Jacksonville in Rev. Mr. Townsend's time were President Sturtevant and Prof. Tanner of Illinois college; Dr. Glover, Dr. Harsha and others. Rev. Mr. Townsend's special friends were Dr. Short and his genial fellow Methodist, Dr. Heath.

Rev. William H. Milburn whose parents' home was in Jacksonville frequently delivered an eloquent sermon in Rev. Mr. Townsend's pulpit. It was in Jacksonville during a conference, that he returned to the Methodist church. His mother said she would never rest until she brought him back.

Rev. Mr. Townsend held the funeral of Hon. Murray McConnell in Strawn's opera house. He also assisted at the funeral of Shirley. Among the prominent weddings he held in Trinity church, were those of Miss Kate Robb to Thomas Howard of St. Louis; and Miss Belle Flack to Oliver Dayton.

After the Rev. Dr. H. N. Pierce or Springfield was made Bishop of Arkansas, Bishop Whitehouse appointed Rev. Mr. Townsend his successor as Dean of the Middle Missionary care about one-third of Illinois—an impossible field for one man to serve when tied down to a parish. With the exception of a few trips as dean toward the Eastern side of the state, Mr. Townsend carried on missions within reachable distance at Havana, Petersburg, Waverly and Winchester. In this work he had the aid of Rev. William Gill and Prof. Henry Higgins, and finally, as a salaried assistant, Rev. James Corneli, all of whom were located in Jacksonville.

Among those connected with Trinity parish during Dean Townsend's rectorship, were the wardens, Henry Stryker and Isaac L. Morrison. Also Judge McClure, George McConnell, Judge Epler, Dr. Sawyer, Dr. Milligan, Judge Berdan and others. Henry Stryker, Jr., was the treasurer, and without fail, on the day it was due, Rev. Mr. Townsend's salary was paid him. In his after-life Mr. Townsend often wished he had a parish treasurer like Henry Stryker, Jr.

Rev. Mr. Townsend was elected one of the delegates to the General Convention, and as such, attended the Baltimore Convention in 1871. About then or afterwards he was appointed as Illinois member of the board of trustees of the General Theological Seminary of New York.

At the end of 1871, after more than three years' rectorship, Rev. Mr. Townsend, at the Bishop's suggestion, resigned Trinity parish and became rector of St. Paul's parish, Peoria. His peaceful career in Jacksonville was a lull between storms.

About 1873, the Reformed Episcopal movement got under headway, and St. Paul's, Peoria, was a chief storm center. The leader of the movement in Peoria had been there for years and stood high in the good graces of the Peorians, ran a large mission Sunday school, and took a leading part in all religious projects. He had a powerful ally in his wife, one of the handsomest, sweetest and most popular women to be found.

This formidable condition, Rev. Mr. Townsend had to face as a new comer. He went into his pulpit, armed with books of reference to show the claims of the Episcopal church, but what he said seemed to fall on many deaf ears. About two-thirds of the congregation moved over to the newly-built Reformed Episcopal church. Rev. Mr. Townsend's congregation was reduced, and consequently his salary was lowered to below a "living wage" after nearly three years' rectorship he left for Washington, D. C.

Look over the battle field today. The storm-beaten St. Paul's, which Rev. Mr. Townsend carried thru the fight, has been built up into three flourishing churches. In them may be absorbed a small parish which did not bear the brunt of the battle. The credit for all this growth is due mostly to Rev. Sydney Jeffords, one of the rectors succeeding Rev. Mr. Townsend.

While Rev. Mr. Townsend was in Peoria Bishop Whitehouse died and Rev. Dr. George F. Seymour was elected to succeed. Rev. Mr. Townsend was devoted to Dr. Seymour. They belonged to the same college and were in the same college fraternity. Rev. Mr. Townsend was a good cause hand and one of his opponents bitterly accused him of bringing about Dr. Seymour's election. The General Convention, which met soon after, would not ratify Dr. Seymour's election, but a few years later, after the diocese was divided he was elected Bishop of Springfield, in which jurisdiction is Jacksonville.

Rev. Mr. Townsend's removal to Washington in 1874 ended his six years' residence in Illinois. His Washington rectorship of over 21 years, called for plenty of hard work and plenty of hard fighting. His small church was unusually handicapped. Another Episcopal church left its undesirable down town location, and built a large handsome church on a fine site within two blocks of Rev. Mr. Townsend's church. Washington's richest and most liberal citizens belonged to it. Inside the parish Mr. Townsend had to contend with two hostile vestries.

Soon after Rev. Mr. Townsend came to Washington, a former parishioner who had moved there, suggested he become chaplain of the House of Representatives and conducted his campaign. In the ensuing Rev. Mr. Townsend's

spokesman said his candidate had neglected to have his ballots printed, and asked those favoring him to write his name on blank paper. He won over his opponent, who had had his ballots printed. Rev. Mr. Townsend wore his robes in opening the daily session. This stand of his probably had much to do with the S. T. D. degree being conferred on him by St. Stephen's college.

In 1876, Dr. Townsend's older daughter was married to William H. Whitehead, a lawyer of Bloomington, Ill., and at one time editor of the Pantagraph. He became a county judge in Colorado and later moved to Denver. There his two daughters teach—one having charge of the music in several public schools. Mrs. Whitehead died about five years ago. When living in Jacksonville, she was a teacher in the Presbyterian Academy under Dr. Thayer.

In 1886, Dr. Townsend's younger daughter married Walter M. Wilson who had been private secretary for two United States Attorneys Generals, Brewster and Garland. She attended the Presbyterian Academy while in Jacksonville. Her daughter is a designer for a stained glass window firm, and her work is in many churches. Dr. Townsend made his home with Mrs. Wilson in Brooklyn during the last 12 years of his life.

Dr. Townsend's son, who attended Whipple Academy and Illinois college, was married to Miss Lella McKnew of Washington, and has been more than 25 years in the employ of a large insurance company in New York. Dr. Townsend was buried in the family plot in Wooster cemetery, Danbury, Conn., whither his wife had preceded him over 15 years. A fine stained-glass window in the Danbury church commemorates his rectorship there.

Lynnville M. E. church will hold a hamburger and ice cream supper Thursday evening, July 19.

Thomas Smithson of Winchester was in the city yesterday with his two young sons, who came for a minor operation on account of tonsil troubles.

## WHITE HALL MEDICS IN SPECIAL MEETING

To Co-operate with Chamber of Commerce in Program of Safeguarding Public Health.

White Hall, July 17.—At a special meeting of the White Hall Medical society today, with all the members present, a resolution was unanimously affirmed, tendering the cooperation of the society to the Chamber of Commerce in every feasible way in its program of safeguarding the public health. The application of Dr. A. R. Jarman for membership was received, and he was duly elected a member.

With reference to the proposed tuberculosis clinic that was to have been held in White Hall this summer, Dr. W. T. Knox, secretary stated to the writer: "A move was made to have a free T. B. clinic here in March, but the epidemic interfered, and it was postponed indefinitely. Have not heard further from state authority, and now that the funds for state health work have been cut to less than one-third by the legislature, from \$100,000 to \$30,000, clinics by the state will be few and far between. A clinic was held last year at Carrollton under the auspices of the Greene County Medical Society, in charge of state men, which proved unsatisfactory to the local physicians, hence they would not endorse on the proposition but should the state authorities decide to come here, I believe the physicians of our society would waive their feelings about the former one, and would give it their support to make it a success."

## COLT RACES ARE HOLDING INTEREST

Two and Three-Year Old Colt Races Hold Horsemen's Interest at Kalamazoo Grand Circuit.

KALAMAZOO, Mich., July 17.—Races for three year old and two year old colts held the interest of horsemen at today's Grand Circuit meeting. Ethelinda, a Peter The Great colt, driven by Walter Cox won the three year old event in straight heats, Tallman's Hollywood Leonard and Ilo Guy, the second Cox entry in this event furnished most of the opposition. The two year old trot was won by Mr. Elwayn, driven by Ben White. He stepped the two miles in 2:09 3-4, good time for the event.

It was "Pop" Geers Day at the track and there was a large crowd out to see the veteran driver attempt to lower the track record of 2:00 made by Single G. In 1916. Geers drove his pacer Sanardo but the best he could do was 2:01 1-2. Roscoe Putnam of Davidson, Miss., piloted Glenn P., to victory in 2:18 pace.

The 2:09 pace resulted in a victory for Radio over a small field. Summaries: 2:09 pace. Purse \$1,000. Radio, won; Hal Abbe, second; Casey Jones, third. Best Time 2:04 1-4. Three Year Old Trot. Purse \$2,000. Ethelinda, won; Hollywood Leonard, second; Ilo Guy, third. Best Time 2:08 1-4. Two Year Old Trot. Purse \$2,000. Mr. Elwayn, won; Colonel Bosworth, second; Erla Guy, third. Best Time 2:09 3-4. 2:18 Pace. Purse \$1,000. Glen P., won; Lady Patch, second; Black Direct, third. Best Time 2:07 1-4.

## ODD GAME OF SERIES GOES TO THE PIRATES

BROOKLYN, July 17.—Brooklyn took the odd game of the series with Pittsburgh today by a score of 6 to 2. The Dodgers scored all their runs in the fourth inning when they bunched five hits, including a double by Bailey and a triple by Johnston. Kunz who relieved Morrison retired the next 14 batters, not a man reaching first. Smith held the Pirates to three hits, up to the seventh when he began to weaken but sharp fielding saved him. When Traynor tripled in the ninth, he had hit safely in 23 consecutive games.

Score: Pittsburgh 000 000 101—2 10 2 Brooklyn 000 600 00x—6 7 0 Morrison, Kunz and Goetz; Smith and O'Neill.

## TIGERS DEFEAT THE SENATORS BY 4 TO 2

DETROIT, Mich., July 17.—Sylvester Johnson who has been slow to round into form this year, turned in a victory today. Detroit defeating Washington 4 to 2 behind steady pitching.

Score: Washington 010 000 010—2 5 1 Detroit 111 010 00x—4 8 0 Mitchell and Ruel; Johnson and Bassler.

## The Fourth Essential

After food, clothing and shelter, the most imperative need of civilized society is transportation—quick, dependable, efficient transportation of persons and products.

After the railroad, whose sphere of activities is circumscribed by the location of tracks and terminals, the most important transportation unit is the automobile, truck or other automotive conveyances. These machines know no limitations. They can go wherever the need for transportation exists.

To keep them in action; to make it possible for them to operate under all and every condition, two things are necessary—fuel and lubricating oil.

Sensing this need, the Standard Oil Company (Indiana) long ago began building distribution depots and service stations, at convenient intervals, throughout ten Middle Western states, from which the car owner could secure his requirements of gasoline and lubricants in such quantities as serve him best.

To supply these outlets, enormous investments have been made enlarging the refining facilities of the Company and millions more have been spent getting the refined products to points where effective, economical distribution can be made.

Throughout the ten states where Standard Oil Company (Indiana) service is organized and in operation, the motorist will find a station every few miles in the country; every few blocks in the city.

At these stations he can secure his gasoline and lubricants of highest quality at the lowest market prices and he has at his command free air, free water, rest rooms and comfort stations.

Conveniently located throughout the territory served, these stations are practical symbols of the effort this Company is making to adequately serve a community of thirty million people.

## PHILLIES LOSE FINAL TO THE CARDINALS

Toney Outpitches Ring in Thrilling Game—Locals Collected in Eighth on Single and Double

PHILADELPHIA, July 17.—St. Louis took the final game of the series from Philadelphia today when Fred Toney outpitched Jimmy Ring in 10 thrilling innings. The final score was 2 to 1. Ring issued but two passes but both were instrumental in scoring runs. The locals collected their tally in the eighth on a single by Wrightstone and a double by Lee, the only extra base hit of the game.

## REDS WIN BOTH IN A DOUBLE-HEADER

BOSTON, July 17.—Pitcher Luque of Cincinnati ran his total of victories for the season to 15 when he was credited with winning both games of the double header with Boston today. The scores were 4 to 3 and 9 to 5. The Cuban pitched six innings of the first game and was relieved by Rixey and then returned and pitched all the second game.

Cincinnati's four runs in the first game were made off McNamara a triple by Burns with the bases full, and a bad throw by Ford to the plate which permitted Burns to score.

## RUNNERS ARRIVE FOR BIG RACING PROGRAM

J. L. Henry Secures Six Running Horses from Belleville—Horses Tax Quarters to Limit—Fences on Grounds Kept Busy Erecting Tents and Caring for New Arrivals.

At last reports yesterday afternoon 119 race horses were quartered at the county fair ground, and ten more were on the road. Like the population of an oil boom town, the number was probably incorrect before it got into type. J. L. Henry, president of the Fair association, is beginning to think this a horse, or horses, on him, as he can hardly find room for the large number of racers, which continue to come in.

The running horses are now beginning to arrive. Mr. Henry recently made a trip to Belleville, where he secured the entry of six runners. Four were entered by W. J. Isabelle of that city, and two by B. M. Wood. J. Cline of Petersburg has also entered a runner. These races promise to be big drawing cards. Heats will be five-eighths of a mile, and will be arranged so that the horses will pass the grand stand twice. Running races will be held each day of the race meet. The horses will be paraded before the stands before each race.

Altho the business houses of the city will not close Thursday and Friday afternoons, merchants are arranging to let half their help attend the races one afternoon, and half attend the next afternoon. It is estimated that purses for the entire meet will total about \$2,000 which amount it is expected to raise from the gate receipts.

One more special tent was erected yesterday to house the running horses. More tents are at the freight depots, and will be erected as soon as the over-worked men on the grounds can get to it. Mr. Henry and his force of helpers are working incessantly to provide quarters for the racers. Every available shady spot is used by grooms and jockeys for the exercising of their steeds. Horses with blankets of all colors are constantly being walked about the grounds.

Twenty-eight head of horses arrived yesterday. Henry Hawkins of Springfield brought in a string of thirteen fast ones, and these are housed in the big tent. Fourteen horses are quartered in barns in the west end, which have been leased for the occasion. Local men who have returned from travelling in southern Illinois say that this race meet at Jacksonville is the talk of the state. Every where it is attracting attention, and the crowd for each of the two days promises to be a record breaker.

## MORE FARM LABORERS

According to the local Farm Bureau the supply of farm laborers now exceeds the demands by a small margin, while heretofore for a long time this class of labor has been in demand. As a rule, the applicants are men who have been working at something else but have signified their willingness to go on the farm for a time.

Mr. and Mrs. David Lewis and son were representatives of Roodhouse in the business district Tuesday.

## ATHLETICS DROP THE FINAL GAME 8 TO 1

Hauser's Homer Saves Visitors from Shutout—Several Interesting Features in Final of Series

CHICAGO, July 17.—Philadelphia was unable to do much with Mike Cvangros today while Chicago launched two big attacks and with the aid of errors easily won the final game of the series 8 to 1.

Hauser's homer saved the visitors from a shutout. Heimach was hit hard in the first inning when the locals took a commanding lead and increased it by bunting two hits, with a walk and two errors by Naylor. Elsh's walk, his steal of second and third, and a sacrifice fly netted the other run. A one hand catch by Elsh against the fence in left center and another by Sheely were features.

R. C. Barton and family spent the past week at Leolun, Ill., and were accompanied on the return by a niece of Mr. Barton, Miss Margaret Dalrymple.

The new baptistry in the First Baptist church was dedicated at the services Sunday night in connection with a pageant by the pupils of the Sunday school, at which eight candidates were baptized. Pastor Ellison and family have gone to Moline and Chicago for a vacation of a month, leaving the congregation at work on plans for the annual fish fry in August on an elaborate scale.

L. V. Vermillion and family departed Monday on their return to Baker, Oregon.

Mr. and Mrs. John B. Goodwin have returned from an auto trip to Missouri, accompanying their daughter, Mrs. Warren Lorton, and family of East Alton.

Harroving and discing, the idea of Alderman L. R. Winn, have been administered to several stretches of heavily traveled dirt road in White Hall with the result that they have been rendered smooth by eliminating the depressions and cupped condition. The idea was first tried along the new high school on North Main street, and was so satisfactory that it has been carried to other parts of the city. The good work is still going on. Other cities having troublesome dirt roads should investigate the White Hall idea.

Great preparations are being made for the band concert in Whiteside park Saturday evening. This concert is to be turned into a band benefit by the action of a group of women in organizing an ice cream social in connection therewith as a band benefit. The popularity of the band concert is thoroughly established. The White Hall band organization is just now receiving more encouragement on the part of the general public than has ever been the case. Efforts to obtain support in a more general way date back some years. In 1914 White Hall made the first drive to obtain support from the city treasury. The idea at that time was entirely new, but the agitation was not out of place, as there has been developing a tendency to give the needed financial support to the band.

EARLY SPRING SALADS

WATERCRESS when obtainable is one of the most wholesome and appetizing of salad. Served with lamb chops as a garnish for the platter, it may be eaten without dressing. Served with French dressing it is one of the best of salads.

Celery and Pepper Salad.—Mix together two cupfuls of finely cut crisp celery, one shredded green pepper and one pimento cut in narrow strips; mix with one teaspoonful of minced chives. Beat one-third of a cupful of salad oil with three tablespoonfuls of lemon juice, one-half teaspoonful of salt, one-half teaspoonful of sugar and a few dashes of red pepper. Mix with the celery and serve on lettuce.

Chicken With Rice.—Select a well-fattened hen of a year old or more, clean, wash and cut at the joints. Rub each piece well with salt and pepper and soft butter. Pick over and wash one and one-half cupfuls of rice. Mix with a teaspoonful of salt, one-half teaspoonful of curry powder and a little pepper. Lay the fowl in a kettle, add one tablespoonful butter, two cupfuls of broth in which the giblets have been cooked for an hour, one cupful of sweet milk, bring to a boil and simmer for three hours on the back of the stove.

Grapefruit and Cabbage Salad.—Peel and remove all connecting fiber from two firm grapefruit. Break the sections carefully, to conserve the juice. Shred fine some firm white cabbage to make three cupfuls, soak in cold water for half an hour, drain and mix with one-third of a cupful of chopped nuts. Drain the grapefruit and mix the juice with olive oil, salt and cayenne to make a French dressing. Serve the grapefruit on a nest of lettuce, covered with the dressing.

Gypsy Stew.—Prepare and cook together young onions, small new potatoes, carrots and green peas. Fry a slice of salt pork, diced, add to the mixture when cooked, and milk and seasoning to taste. Serve as a vegetable.

FRANK KIRK TO JOIN BIG MUSICAL COMEDY

Frank Kirk, Jacksonville's famous comedian, left last night for New York City, where he will join Gus Hill's big musical comedy, "Bringing up Father." The show is now playing in a Broadway theater but will go on tour later in the season and probably will play Jacksonville.

Mr. Kirk will do the principal black face comedy part in the show and also put on his musical act. He is the first one of his race to appear in a cartoon play.

This will be Mr. Kirk's thirty-eighth year before the public as a comedy entertainer. His many friends in Jacksonville are sure he will make good with the show.

PHYSICIAN ADVISES PEOPLE

"My wife suffered for years with stomach trouble which did not yield to any treatment. She took a dose of Mayr's Wonderful Remedy last Saturday with wonderful results. I have practiced medicine for 20 years and have never seen anything like it before. I have recommended Mayr's Wonderful Remedy, to several that I know need this treatment." It removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For Sale at all Druggists Adv.
